Notice Regarding Changes to Nameplate Backing Material, Ink Composition, Attachment Position, and Printing Equipment

We would like to inform you of the following design changes:

1. Details of the Changes:

- Change in nameplate backing material
- For certain products, change in attachment position
- Modified components: backing material, ink, attachment location, and printing equipment

Due to the change in printing equipment, backing materials will be consolidated. As a result, for some products, the attachment position and number of nameplates may be altered.

2. Reason for the Changes

As part of our commitment to maintaining and enhancing product identification, we will be updating the nameplate printing equipment following the discontinuation of the current system.

These updates are limited to labelling only and will not affect product specifications, performance, or form, fit, and function.

3. Effective Date

Changes will be implemented starting with production in May 2026 (Mixed lots may occur)

Should you require any further information or clarification, please do not hesitate to contact your respective account handler.

Sincerely,

Oriental Motor (Malaysia) Sdn Bhd
